Englobe Audacity Scholarship

INTRODUCTION

This scholarship was generously created by Englobe to recognize up and coming professionals and tomorrow's engineers who show caring, transparency, optimism, team spirit and intrapreneurship.

Englobe Corp. Englobe is one of the main businesses in Canada specializing in engineering and environmental services. For more than 70 years, we have conducted surveys, inspections, tests, analyses and rigorous assessments, and we supervise and monitor work on behalf of our clients. With over 3,200 employees at 102 offices in Canada, France and the United Kingdom, we offer a wide range of services: engineering, design, inspection, environmental consultation, restoration, materials management and reuse.

At Englobe, we're committed to building a sustainable future, one project at a time. Our mission is to excel in projects through strong relationships and relentless care to effect positive, tangible change. Five key values are central to our approach:

- Radical caring
- Empowering transparency
- Optimism first, always
- All for one, one for all
- Positive intrapreneurship

Our talented multidisciplinary teams have consistently acted with integrity, excellence, credibility and radical caring for our clients, our communities and the environment. We have extensive experience in offering professional and technical services to clients from multiple sectors, public and private (transportation, infrastructure, energy, telecommunications, mining, etc.) as well as in industry, business and institutions. We also do work for the federal government, and for provincial and municipal governments.

PURPOSE OF FUND

To recognize the next generation and tomorrow's engineers who stand out by embodying Englobe's values through their community engagement and involvement in their studies at the University, as well as being involved and interested in the company's areas of activity.

AWARD DETAILS

Eligibility

Applicants must:

- Be a Canadian citizen, a permanent resident, or a person with protected or refugee status.
- Be enrolled full time in an undergraduate program in the Faculty of Engineering or the Faculty of Science at the University of Ottawa:
 - Biotechnology
 - Civil Engineering
 - Chemical Engineering
 - Biology
